**The Order No 7 of the Chairman of the State Procurement Agency  
September 20, 2010**

**On Approving the Rules for the Identification of the Procurement Objects and the  
Determination of Homogeneity Thereof**

Pursuant to Article 3(1) (d), Article 4(6) (l) and Article 24(6) of the Law of Georgia on State Procurement, I hereby order:

1. The Rules for the Identification of the Procurement Objects and the Determination of Homogeneity thereof along with the enclosed Appendix (Appendix No 1) shall be approved.
2. The Order shall become effective upon publication.

*T. Urjumelashvili*

**The Rules for the Identification of the Procurement Objects and the Determination of  
Homogeneity thereof**

**Article 1. General Provisions**

1. The Rules for the Identification of the procurement Objects and the Determination of Homogeneity thereof (hereinafter - the Rules) have been developed on the basis of Article 3(1), Article 4(6) (l) and Article 24(7) of the Law of Georgia on State Procurement (hereinafter - the Law).
2. The purpose of the Rules is the identification, classification and the determination of homogeneity of procurement objects by applying the classification adopted by the international organizations, in cases of simplified procurement, simplified electronic tender, electronic tender and consolidated procurement.

**Article 2. Definition of Terms**

1. For the purposes of these Rules, the terms used thereof shall have the following meaning:
  - a) Unified Electronic System of State Procurement - state procurement portal located on the official website [www.procurement.gov.ge](http://www.procurement.gov.ge) of the State Procurement Agency (hereinafter - the SPA) that ensures the conducting of state procurement through a simplified electronic tender or an electronic tender in an open, transparent and competitive environment (hereinafter – the System);

- b) classification adopted by international organizations – Common Procurement Vocabulary (CPV) stipulated under the European Union Directive EC N213/2008 that sets forth a unified system of objects of state procurement and is aimed to standardize the references used by procuring entities to describe the procurement object (hereinafter – Classifier);
- c) Homogeneous procurement objects – identical objects, as well as the objects that are non-identical but have similar components, technical features (specifications), and/or functions that are determined in accordance with the Rules.

2. Other terms used in the Rules shall have the following meaning as in the Law.

### **Article 3. Availability of the Classification**

- 1. The official version of the Classification is part of the System, which functioning is ensured by the SPA.
- 2. The official version of the Classification is located in the System and is accessible for any interested person.

### **Article 4. The Structure of the Classification**

- 1. The Classification is broken down into 4 logically interrelated procurement hierarchical levels, the largest aggregated level of which is a division that is subdivided into groups, groups, in turn, are subdivided into the classes, and classes are subdivided into categories. In some cases the categories are subdivided into sub-categories.
- 2. The Classification is comprised of main codes that identify the procurement object.
- 3. Main code of the Classification is made up of 8 digits, where:
  - a) the first three digits identify the divisions (e.g. XXX00000, where XXX identify a division);
  - b) the first four digits identify the groups (e.g., XXXX0000- where XXXX identify the group);
  - c) the first five digits identify classes (e.g., XXXXX000-where XXXXX identify a class);
  - d) the first six digits identify categories (e.g., XXXXXX00 - where XXXXXX identify a category);
  - e) the last two digits are used for the identification of a procurement object.

### **Article 5. Homogeneity of procurement objects**

- 1. When selecting the method of state procurement, to ensure the compliance with the requirements of the Law the homogeneity of procurement objects is determined in accordance with the divisions of the Classification (Appendix No 1)

*Example 1.* Procurement object with an 8-digit code: 18820000 (sports shoes) and a procurement object with an 8-digit code: 18830000 (protective shoes) fall in the same division (1880000 shoes), since the first three digits (188) of both objects' 8-digit code are identical, respectively, the

mentioned procurement objects are homogeneous procurement objects.

2. In special cases if a procuring entity justifies that specific objects falling under the classes and categories of the same group may not be considered to be homogeneous and if it submits to the SPA a justified written application on declaring the mentioned procurement objects as non-homogeneous the SPA, within no later than 10 business days takes a decision with regard to the homogeneity of procurement objects and notifies a procurement entity about the above-mentioned.

3. The application envisaged under Paragraph 2 of this Article and acquainting oneself with the decision of the SPA may be performed via the System or the SPA website ([www.procurement.gov.ge](http://www.procurement.gov.ge)).
